

# Traitement Pour Les Mains™

## ANTI-AGING HAND TREATMENT

BY ESTELINA'S SPA PRODUCTS

**Step 1 ▪ L'Exfoliant** ~ Apply a small amount to the hands with the included spatula. Gently massage with long upward strokes from the fingertips to the wrist. Exfoliate until the dead skin cells start sloughing off, do not rinse, and follow with Le Serum (step 2).

**Step 2 ▪ Le Serum** ~ Apply a small amount of Le Serum to the hands, do not remove, and follow with Le Masque (step 3) to allow this intensive, hydrating treatment to absorb deeply.

**Step 3 ▪ Le Masque** ~ Continue with each hand by gently spreading a small amount of Le Masque. Let it rest on one hand and continue with the other. Remove any remaining product from both hands with a warm towel, pat dry, and follow immediately with another application of Le Serum. Finish with La Crème (step 4).

**Step 4 ▪ La Crème** ~ After applying Le Serum use a small amount of La Crème and enjoy a firm, relaxing massage until absorbed.

**Note:** For best results always use Le Serum and La Crème together in the morning and evening for an incredibly hydrating mini-treatment.

Number of Applications				
Product	Size	Applications	Size	Applications
L'Exfoliant	2 oz	30+	16 oz	200+
